PROJECTS

Dungeon Master Manager:

Dungeon Master Manager allows the DM (Game Manager) to effectively run the campaign and efficiently update character stats for each turn in a given campaign. Individual players are able to view the stats of their characters as they play along.

<https://maws-dungeon-master-mgr.herokuapp.com/>
<https://github.com/leopoldleopold/Dungeon-Master-Manager>

- Utilized the Annyang Javascript library to add voice controls
- Created character form to store within database
- Assisted in designing website using React and Bootstrap
- Technology used includes React, Annyang, Bootstrap, and MongoDB

Quarantine Pets:

Quarantine Pets is a virtual pet to play with, love, and care for in the way of the original Tamagotchi.

<https://quarantine-pets.herokuapp.com/>
<https://github.com/leopoldleopold/Quarantine-Pets>

- Assisted in designing website using Bootstrap
- Created animaton for Pet status
- Constructed pet values for Database as well as Pet Logic
- Technology used includes SQL, Passport and Express

BAMAZON:

Bamazon is an inventory management and purchasing software.

<https://github.com/leopoldleopold/bamazon>

- Used SQL to store and retrieve inventory
- Utilized Inquirer to gather user request
- Created a Customer Mode strictly for purchases
- Created Manager Mode to view current stock, items with low quantity, the ability to add new items, or replenish stock.
- Technology used includes SQL, Inquirer, and NodeJS

LIRI (Language Interpretation and Recognition Interface) BOT:

LIRI is a NODE application that provides the user with information regarding concerts, songs, and movies from the user's terminal.

<https://github.com/leopoldleopold/liri-node-app>

- Created API calls for user requested data within NodeJS
- Technology used includes Axios and Moment

EXPERIENCE

November 2019 - Present

Store Associate, Tired Hands Brewing Company, Ardmore PA

- Tracked beverage inventory and sales using TOAST. Transferred relevant data to separate documents in order to determine future supply.
- Frequently created stellar in person experience for brand devotees and craft beer fans. Discussed beer on a scientific level to do so, as well as introduced consumers to the finer aspects of craft beer. In doing so, cultivated relationships with clients and external organizations.
- Provided training to individuals.

October 2015 - July 2019

Delivery Driver / Sales Person, Thom's Bread, Lancaster PA

- Responsible for the packaging, transportation, and sale of product, used SQUARE.
- Collected data to track bread profits for determining potential profits and unwanted product. Bi-monthly increased sales by 5% for duration of employment.
- Served as informal personal manager and creative problem-solver in a role that required significant accountability and collaboration skills regarding client interaction. Frequently involved in brainstorming and providing construction feedback using technical writing and editing.
- Trained numerous employees regarding employer's system.

December 2017 - September 2018

Manager, Moira Records at Lazarus, Lancaster PA

- Planned, supervised, DJ'd, and provided audio mixing for special events, including concerts and private parties.
- Directly responsible for Moira's communication with the artistic community. Curated art direction as well as creating and maintaining professional relationships with all artists involved. Consistently provided constructive feedback as well as strategic direction.
- Managed all social media channels and customer/client relations. Responsible for transitioning a failing business model into an admirable and populated venue.

August 2011 - January 2016

Senior Teller, Northwest Savings Bank, Lancaster PA

- Engaged in cross selling and referring bank products and services while acquiring and continuing accounts in order to maximize customer relationships. Frequent internal and external correspondence.
- Analyzed data in order to direct staff in effectively achieving sales. Provided documentation using accumulated data to display areas for growth and neglected aspects for customer relations, regularly would present findings in meetings to raise awareness and inform bank staff. Responsible for branch exceeded loan expectations by 12%. Formerly recognized and commended for accomplishments within company.
- Trained numerous employees in using bank software, company procedures, as well as permanently being in a supervisory position.

September 2010 - Present

Audio Engineer, Freelance

- Recorded, mixed, and mastered numerous artists using audio engineer techniques and software that included Logic Pro 7-10, Ableton 8-10, Pro Tools, and Reason 5-11.
- Utilized extensive knowledge of modular synthesis, musical theory, production, to provide sound design and clear recordings.
- Maintained all equipment.
